Program Overview

This pay as you go cellular program allows your customers to make and receive calls just like a regular postpaid cell phone. Finally customers can buy cellular service with no contract or credit check and still enjoy the same quality phones, great rates and crystal clear service on a Nationwide Network. You can now offer the latest cellular technology to all of your prepaid wireless customers as well as flexible plans that combine great features with great national coverage. All plans include free voicemail, free nationwide longdistance, free in-network roaming, free caller ID, free call waiting and no hidden charges or extra fees. Customers only pay for the airtime they need. You can activate customers with PINs, or if you prefer to not use PINs, you can use our online POS activation platform and activate over the Internet in minutes.

It's Never Been Easier

Many business owners just like you have discovered the benefits of joining the fastest growing communications company in the country. As a dealer, you can capitalize on a market that in many places has never had a local presence in the community. Become part of a dynamic, growing industry that attracts millions of new customers each year. By selling cellular products and services, you often earn the business of new clientele and reach new demographics. Best of all, you will be part of a nationwide network supported by the most respected wireless service providers in the country. The need for qualified dealers is never ending. Take a minute and contact an agent to find out how becoming a dealer can be profitable for you.
